August 22, 2023

Dear Parents:

During the August 14, 2023 school board meeting, April 8, 2024 was approved as an eLearning day in response to the solar eclipse that will occur that afternoon at approximately 3:05 p.m. School administration has worked closely with Putnam County Emergency Management to determine the correct response to this event. Various leaders throughout the community expect a large number of visitors to the Putnam County area to view this event. The increased traffic to the area could make transporting students home from school a challenge, even on rural roads. We believe that learning from home during this day will ensure the safety of our students. Please refer to the school corporation website at www.cloverdale.k12.in.us for information concerning eLearning day procedures.

CCSC will have two remaining eLearning days and two built-in snow days (Jan. 15, 2024 and Feb. 19, 2024) to use as needed during the remainder of the school year.

Sincerely,

Greg Linton

Superintendent
